"Recognising Our Common Humanity"

Through an exciting, new photography exhibition, you can travel through Gaza with young people on a unique journey of discovery – finding those moments of common experience that bind us all together in one human family. Follow them from the streets where they walk every day, to the houses or refugee camps where they live; from the markets where they shop, to the sea where they send off their dreams; from the destruction of war to sights of extraordinary natural beauty; from raw human suffering to indisputable, unbeatable hope and love for life. The exhibition opens to the public 27th February until 26th March.

This preview event includes refreshments and the opportunity to tour the exhibition accompanied by young people attending the Middle East Youth Festival. The delegates from Jordan, Lebanon, the USA and Scotland will share their thoughts on peace and their views on communication through the arts.

Places Limited: Please RSVP by Thursday 18th February to Sarah Dorrian at 0131 662 5195 or email sdorrian@uk.mercycorps.org
